The corporate governance of NTT DATA is described below.

### **I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information**

#### **1. Basic Views**

The NTT DATA Group aims to establish a business structure that produces stable profits through continuous growth by carrying out the mission to create new systems and values with information technology for a more affluent and harmonious society, and also by forecasting future trends to swiftly and accurately respond to the changing market environment, client needs and the cutting-edge technology trend.

Under this management philosophy, the NTT DATA Group has set the Medium-Term Management Plan from FY2019 to FY2021 to aim for “profitable global growth with consistent belief and courage to change.”

With the “consistent belief,” under the basic concept of “shape the future society with our clients,” we will promote ESG management with the aim of improving corporate value sustainably by contributing to a society through co-creation with clients as well as to efforts to realize a society where everyone is motivated to work through our corporate activities including the work style innovations based on the “Long-Term Relationships” with clients, the source of the group’s competitive advantage.

In addition, with “courage to change,” we will implement three strategies: “Expand global digital offerings,” “Deliver greater value to clients based on regional needs,” and “Unleash our employee’s potential that maximize organizational strengths.” Also, we will maximize value for our clients by further accelerating digital transformation and enhancing our global synergy.

The NTT DATA Group will play an active role in overcoming the various issues that face society through the appropriate provision of various information services by the Group’s officers and employees based on common sense, as well as in complying with laws and contracts at home and abroad and in respecting international standards including those of human rights.

Under these concepts, NTT DATA is working on the following basic policies in accordance with the purpose of each principle of the Corporate Governance Code to ensure that corporate governance will effectively function: (1) to ensure transparency and soundness in business management; (2) to achieve appropriate and swift decision making and business execution; and (3) to implement compliance thoroughly. The purpose of working on such basic policies is to meet the various expectations of stakeholders, including shareholders, investors, clients, business partners and employees, and to maximize enterprise value.

##### (1) Ensuring transparency and soundness in business management

NTT DATA strives to disclose information in a just, fair and timely manner in accordance with the “Disclosure Policy,” based on the “Disclosure Guidelines.” Such disclosure is important in that it enables the market to appraise NTT DATA appropriately. For this reason, NTT DATA holds a meeting for explanation of financial results when financial results are announced quarterly, and often holds other meetings for domestic and international investors and analysts, in order to ensure transparency in business management. To reinforce the function of supervising and auditing the fairness in business execution, NTT DATA places outside directors and outside audits to ensure soundness in its business management, and has the Board of Directors supervise and the Audit & Supervisory Board audit business execution. NTT DATA also pays attention to maximize the profit of its shareholders when transacting business with NTT, Inc. and NIPPON TELEGRAPH AND TELEPHONE CORPORATION (hereinafter referred to as “the parent companies”), the parent companies of NTT DATA, and the companies in NTT Group.

##### (2) Achievement of appropriate and swift decision making and business execution

Decision making at NTT DATA is carried out under the supervision of the Board of Directors in accordance with “Authority Rules,” which stipulate the responsibility and authority of the President and CEO, the Senior Executive Vice President, officers responsible for regions and segments and heads of each section or group. For smooth and swift decision making and supervision in its business operations, NTT DATA has established the “Corporate Management Committee,” which is made up of the President and CEO, the Senior Executive Vice President, officers responsible for regions and segments and other heads of important section or group, and has prior discussions at such “Corporate Management Committee” for effective deliberations about the items to be resolved at the Board of Directors including outside directors. In addition, NTT DATA pursues appropriate and swift decision making and business execution by placing Senior Vice Presidents in charge of business execution, assigning most of the authority relating to business execution to such Senior Vice President from directors, with each Section or Group executing business operations independently and responsibly in accordance with the “Organizational Regulations.”

##### (3) Thorough implementation of compliance

NTT DATA is determined to operate its business in accordance with high ethical standards as well as compliance by setting up “Global Compliance Policy,” targeted at all officers and employees of NTT DATA Group, in order to clarify its basic policy and specific behavior guidelines relating to corporate ethics. To make such business operation effective, NTT DATA consider it necessary to implement a continuous educational campaign to promote the awareness of such ethics and compliance. Therefore, it has been holding training sessions on compliance targeted at employees and conducting employees’ attitude surveys. Aiming for more openness in its corporate culture, NTT DATA has placed “the Whistle Line,” which is a cross-sectional internal reporting system in the Group, receiving any declaration from the inside and the outside of the company, whether anonymous or named. NTT DATA ensures that any declarer to the reception desk through “the Whistle Line” is not unfavorably treated because of his or her declaration.

## [Reasons for Non-compliance with the Principles of the Corporate Governance Code]

[Supplementary Principle 4-10-1]

(Having independent directors involved and receiving their advice by setting up an independent advisory committees)

Although NTT DATA has not set up an independent advisory committee such as a voluntary nomination committee or remuneration committee, in advance of the resolution by the Board of Directors, we provide independent directors and the parent companies with explanations about the nomination of candidates for directors and remuneration for directors and receive appropriate advice from them. With the appropriate involvement and advice of independent directors for the nomination of candidates for directors and remuneration for directors, we believe that independence and objectivity of the functions and accountability of the Board of Directors concerning these matters is fully assured.

## [Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1-4] (Cross-Shareholdings)

(A) Policy relating to cross-shareholdings

NTT DATA's purpose of cross-shareholdings is to maintain the medium- to long-term relationship, to expand the trading volume and to create synergy with clients and business partners by holding shares issued by them. It is our policy to hold such shares if holding them is likely to enhance NTT DATA's enterprise value and lead to profit for our shareholders.

(B) Assessment of cross-shareholdings

NTT DATA assesses the meaningfulness of cross-shareholding for each share every year, in a comprehensive manner, from the viewpoint of whether benefits and risks from holding the shares are commensurate with capital costs and in line with the purposes of holding: to maintain the medium-to long-term relationship, to expand trading volume, to create synergy with clients and business partners and so forth and reports to the Board of Directors, then decides whether to hold or sell such shares. In FY2018, as a result of this assessment, we have confirmed the adequacy of holding all the listed shares held. If it proves to be inadequate to hold a share due to changes in situations, NTT DATA will take measures including reduction of the number of shares.

(C) Standards for ensuring the exercise of its proper voting right in relation to cross-shareholdings

With regard to standards for ensuring the exercise of its proper voting right in relation to cross-shareholdings, NTT DATA judges in a comprehensive manner whether the exercise of its voting right in relation to cross-shareholdings will lead to continuous growth and improvement in the medium- to long-term enterprise value of an issuing company. For example, NTT DATA will vote against a proposal if it has a negative impact on the financial soundness of the issuing company or the company's illegal action is discovered. NTT DATA considers that such comprehensive judgment will enhance its own enterprise value and medium- to long-term profit for its shareholders and investors.

[Principle 1-7] (Related Party Transactions)

With respect to transactions involving a conflict of interest stipulated in Companies Act, including direct transactions between NTT DATA and its own individual officers and transactions between NTT DATA and other organizations or companies represented by directors of NTT DATA, it stipulates that prior approval is necessary in accordance with its "Regulations of the Board of Directors." Such approval from the Board of Directors is first examined by the Legal Department and then looked into in terms of appropriateness and economic practicality, including whether the said transaction is in the same condition as general trade terms. After obtaining such approval, the status of the said transaction is regularly reported to the Board of Directors.

Transactions between NTT DATA and the parent companies undergo prior examination and are then approved by the Legal Department in accordance with the "Authority Rules," based on opinions of third-party specialists, if necessary, while the practicality and appropriateness of the transactions are being investigated.
