**External partners**

- **Hardware manufacturers**: Fujitsu, NEC, Hitachi, Dell Technologies, etc.
- **Software companies**: Microsoft, Oracle, SAP, Various cloud services, etc.
- **Programming companies**: Business partner companies, systems subsidiaries, etc.
- **Network carriers**: Various telecommunication carriers: NTT Com, NTT Inc., etc.

**Consulting**
We think of clients’ business together with the clients to develop the concept of their IT system

**Plan-based service**
We provide services to clients using systems we planned/developed and retain

**System development**
We receive requests from clients and develop their systems individually

**Outsourcing (AMO/ITO/BPO)**
We undertake management/operation related to clients' IT on their behalf

**Choosing optimal combinations from various options for integrating**
The unwavering Long-Term Relationships with clients are the cornerstone of NTT DATA’s competitive advantage.

- A multi-vendor, which does not solely provide certain hardware/software
- The partnership with players in various products and service segments
- Develop a social infrastructure system that would require coordination of a lot of vendors

**Long-Term Relationships — Unwavering Bonds of Trust —**

NTT DATA’s Competitive Advantage Brought about by Long-Term Relationships

- Provision of high added value/client satisfaction
- Sharing knowledge with Group companies
- Stability
1. About NTT DATA

Changes in Net Sales

Net sales has been increasing steadily since our founding, and keep growing in three phases.

※Figures for FY2017 and earlier are based on JGAAP and on IFRS from FY2018 onwards.
1. About NTT DATA

Our Presence in Domestic Markets

While possessing a large market share in financial and public/social Infrastructure markets, there is still a large room to grow in enterprise/solutions market

<table>

1. About NTT DATA

Our Presence in Overseas Markets

We pride ourselves in also having large market shares overseas, such as in Spain and Italy, but keep on aiming to increase our presence mainly in countries with a large market size.

**Size of market in each country, our ranking and market share in 2019***

- **Japan** 2nd
  - Market share: 10.1%

- **Turkey** 5th
  - Market share: 5.5%

- **Spain** 3rd

- **Chile** 4th
  - Market share: 4.9%

- **Italy** 9th
  - Market share: 2.7%

- **Germany** 12th
  - Market share: 1.8%

- **United States** 30th
  - Market share: 0.9%

*Graphs/charts are created by NTT DATA based on Gartner Research.
The stock price recovered after the announcement of 2Q results.

Stock price trending higher than TOPIX

- Total number of shares issued: 1,402,500,000
- Unit: 100 shares

The market had a negative outlook on our high ratio of overseas business which can be affected by COVID-19.

The stock price recovered after the announcement of 2Q results.
1. About NTT DATA

Impact of COVID-19 on NTTD Business

Forecast as of Aug. 7, 2020

- **Minus influence**

  • **Negative impact is expected broadly, although the level varies by country and by industry**, since investment appetite is likely to decline due to deterioration in business confidence and restrained investment on the side of clients who would strive to maintain and improve their businesses. **Delays, downsizing, or suspension of development are expected** mainly with existing expanded projects and additional projects.

  • **Greater negative impact is expected on the enterprise market, new projects, and business targeting SMEs markets both in Japan and abroad**, since those businesses are likely to reduce IT spend.

- **Plus influence**

  • On the other hand, in order to build back better in new normal with COVID-19 or in Post-COVID-19 era, **businesses leveraging digital technologies to build new society are expected to accelerate**, which would provide more business opportunities for NTTD to contribute to.

  • **Many of such businesses would be recognized in our business performance from FY21 and onwards**, since clients would start to consider and spend for such projects from FY20.
1. About NTT DATA

Full Year Forecasts for Fiscal Year Ending March 31, 2021

- Assume negative impact of COVID-19, though the situation differs depending on a country or an industry.
- New orders received will decrease due mainly to less orders from the previous fiscal year such as for large-scale projects and IT investment restraint overseas.
- Net sales will decrease due mainly to a decrease of sales from orders of the current fiscal year, despite stable conversion of order backlogs.
- Operating income will decrease due mainly to sales decline, despite a decrease of temporary costs of the previous fiscal year.

Aim to secure the same level of operating income margin as the previous fiscal year while carrying out structural transformation for the future.

</tbody>
</table>
We are making stable progress toward our full year forecast, despite negative impacts by the spread of COVID-19 on our entire business, particularly in North America, EMEA & LATAM, and Enterprise & Solutions segments.

- New orders received decreased due mainly to less orders compared to the previous fiscal year such as for large scale projects.
- Net sales remained on par with the previous fiscal year due mainly to a stable conversion of order backlogs.
- Operating income remained on par with the previous fiscal year due mainly to reduced unprofitable projects despite an increase in expenses for structural transformation.

## Impact of COVID-19 on NTT Data Business

- By and large, the negative impact of COVID-19 was smaller than expected at the time of the announcement of the earnings forecast in August. The situation has been steady mainly in existing businesses and digital related projects. However, we will continue to monitor the impact of regional economies and corporate activities, including the re-spread of COVID-19 in Europe.

### Assumptions at the time of announcement of earnings forecasts (2020/8/7)

<table>
<thead>
<tr>
<th>Segment</th>
<th>Assumptions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Public &amp; Social Infrastructure Segment</strong></td>
<td>Despite the small impact on critical social infrastructure, mainly of the central government and ministries, the negative impact would be expected in regions in enterprise businesses and telecom sector due to restraint on IT investment.</td>
</tr>
<tr>
<td><strong>Financial Segment</strong></td>
<td>Despite the positive impact of the digitalization in banking, insurance and securities sector, the downturn in the local economy would gradually have a negative impact such as the extension of development projects in the banking sector.</td>
</tr>
<tr>
<td><strong>Enterprise &amp; Solutions Segment</strong></td>
<td>Despite the expected expansion of the demand in the payment sector, the negative impact would be significant, caused by decreasing demand due to self-restraint in the retail and service industry and the manufacturing industry, and restraint on IT investment.</td>
</tr>
<tr>
<td><strong>North America Segment</strong></td>
<td>Despite the steady progress in the public sector, the negative impact would be significant, caused by temporary decreasing orders for large-scale ITO and BPO projects due to restraint on IT investment in the manufacturing industry and medical institutions.</td>
</tr>
<tr>
<td><strong>EMEA &amp; LATAM Segment</strong></td>
<td>Despite the steady progress in public and utility sectors especially in Spain, negative effects would be significant in the automotive sector in Germany and hospitality and retail sectors in Spain. In addition, there will be a negative impact of foreign exchange due to currency depreciation in Latin America.</td>
</tr>
</tbody>
</table>

### Second Quarter Status against Forecast

<table>
<thead>
<tr>
<th>Segment</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Japan</strong></td>
<td>Although there is an impact on some enterprise businesses in the regions, impact on telecom sector was smaller than expected and businesses for central government and ministries remained strong.</td>
</tr>
<tr>
<td><strong>Financial Segment</strong></td>
<td>Despite the impact of cancellation or postponement of some projects, mainly in the banking sector, the Financial Segment remained stronger than expected due to the expansion of projects for financial institutions centered on banks, insurance and securities companies.</td>
</tr>
<tr>
<td><strong>Enterprise &amp; Solutions Segment</strong></td>
<td>Although the impact from the Covid-19 particularly in the manufacturing industry is continuing, the result has remained stronger than expected due to the expansion of demand in the payment sector and digital projects in the retail and service industry.</td>
</tr>
<tr>
<td><strong>North America Segment</strong></td>
<td>In spite of some negative impact caused by restraint on IT investment in the manufacturing industry and medical institutions, the impact has been smaller than expected due to the recovery of large-scale projects and revitalization of digital-related projects.</td>
</tr>
<tr>
<td><strong>EMEA &amp; LATAM Segment</strong></td>
<td>Despite the impact on financial institutions in Spain and automotive industry in Germany from the new lockdown and travel restraints as well as the negative impact of foreign exchange due to currency depreciation in Latin America, the impact is smaller than expected due mainly to the revitalization of digital-related projects particularly in Italy.</td>
</tr>
</tbody>
</table>
1. About NTT DATA
**DX Solution Accelerated with Co-Existing COVID-19**

Announcement of the “DX solution accelerated co-existing COVID-19 " for the realization of a new society.

Accelerate contributions to society and companies that are expected to transform themselves as our initiatives to resolve issues through our business activities.

### New designs required by companies and industries

- **Need for supply chains and data linkages** adaptable to uncertain conditions
- Every contact point will be replaced by an **non-face-to-face contact point**, and every customer contact point will be converted into **data**, and serve as a source of new value creation.
- Remote work has become mainstream and made the role of the office change, in addition, has made the IT infrastructure and security for support the business environment evolve.

---

© 2020 NTT DATA Corporation
In the first quarter, we started to solve various social issues in the COVID-19 era, accelerate social contribution through our business activities, and promote reform of ourselves to realize a new society.

### NTT DATA's Vision for a New Society

- **Real as a "living human activity"**
- **"New Real" online**

A society where people can use things freely according to their purpose = best mix of real and online

### Accelerating Social Contribution through Business

- **Society**
  - A new nation
  - A new society
- **Life**
  - New daily living
  - New consumer behavior
- **Industry**
  - A new industry
  - New corporate structure

### Transformation of NTT DATA

Reforming working styles to realize a new society

- Diverse ways of working
- Advanced Business processes
- Safe and secure Workplace environment

© 2020 NTT DATA Corporation
In order to contribute to the DX of whole society, we have established the Social Design Office and will accelerate activities as a company-wide initiative across industries.

Realization of a Digital Society

- Cooperative R&D
- Expansion of Digital Talent (CDO, etc.)
- Dissemination of information and proposals

External Partners
- Clients
- Different industry
- Same industry
- Consortium, etc.

Companywide initiatives for the realization of a digital society

- Global Supply of good practices in Opcos
- R&D Digital Offering
- Planning and promotion

Viewpoint from consumers’ perspective

Big picture of Services from a panoramic view of society
2. Growth Strategy
2. Growth Strategy

The Road to Trusted Global Innovator

Aiming to become a company trusted by worldwide clients as one of the Global Top 5 companies around 2025

1. Global 1st Stage
   Increased Global Coverage
   - FY2005-2015
   - Net sales: 0.9 → 1.6 trillion yen
   - Overseas sales ratio: 30%

2. Global 2nd Stage
   Recognized Global Brand
   - FY2016-2018
   - Net sales: 1.6 → 2.2 trillion yen
   - Overseas sales ratio: 50%

3. Global 3rd Stage
   Reputation as Trusted Brand
   - Around 2025
   - Global Top 5
   - Global business Portfolio
   - North America
   - EMEA & LATAM
   - Japan & APAC
   - Overseas sales ratio
Aiming for profitable global growth with courage to change and consistent belief during the next three critical years to achieve the Global 3rd Stage

### Profitable Global Growth: FY2021 Business Goals

- **Growth**
  - Net Sales: 2.5 trillion yen
  - Client Base: over 80

- **Earnings**
  - Operating Income Margin: 8%
  - Overseas EBITA: 7%

### COURAGE TO CHANGE: Maximize value for clients

#### Transformation & Synergy

- **Strategy 1**
  - Expand global digital offerings
- **Strategy 2**
  - Deliver greater value to clients based on regional needs
- **Strategy 3**
  - Unleash our employees’ potential that maximize organizational strengths

### CONSISTENT BELIEF: Shape the future society with our clients

Drive NTT Group collaboration
2. Growth Strategy

COURAGE TO CHANGE Strategy 1: Expand global digital offerings

Setting specific industries and technologies as areas of focus and creating strengths from active investments
Providing enhanced value to our clients by promoting consistent value offering model and regional strategy

Common value offering model

- **Discover**: Forecasting on the market and clients’ needs, discovering new technology
- **Design**: Grand plan with a view to collaboration of various businesses and services
- **Develop**: Creating and offering solutions based on advanced system construction abilities and applicability
- **Drive**: Support for clients’ maximum utilization of solutions

Regional strategy

- **Japan**: Leverage strength in existing areas to create new value
- **China & APAC**: Capitalize on market growth to dramatically expand business
- **North America**: Expand our focused service portfolio, and secure high-potential customers
- **EMEAL**: Enhance value towards clients through unification
Promoting collaboration among all employees based on globally consistent values and maximizing organizational strengths by enhancing individual power

**Unleash employees’ potential**
- Enhance digital capabilities
- Ensure our workplace enhances the diversity of our professionals
- Improve employee engagement

**Digitize our work environment**
- Share knowledge, promote collaboration & transform business process leveraging digital
- Transform the system development process by the next generation production technology

**Enhance our governance processes**
- Enhance risk management
- Advance project management

---

**Clients First**

- Foresight
- Values
- Teamwork
2. Growth Strategy

COURAGE TO CHANGE  Drive collaboration across NTT Group

Enhance our presence in the global market by creating new values with NTT Group, while continuing to strengthen the NTT DATA brand

Collaboration in advanced fields

Leverage global solution-based R&D\(^1\) as well as R&D in next-generation science\(^2\)

Collaboration in each region

Expand business by cross-sell and provision of total service (B2B2X etc.)

Collaboration utilizing economy of scale

Drive reduced costs through NTT Global Procurement Organization

\(^1\) AI, IoT, etc.  \(^2\) Quantum computing science, cryptography information theory, biological information processing
Contributing to solving social issues through business/corporate activities and constantly increasing corporate value

“Shape the future society with our clients”

Clients

Value creation based on Long-Term Relationships

NTT DATA

Constant increase in corporate value

Sustainable Development Goals (SDGs) adopted at United Nations summit

NTT DATA’s ESG-based management

Contribution to society through business
2. Growth Strategy

NTT DATA’s ESG Management

Concepts of ESG Management

Contributing to society and increasing corporate value through business

- Resolve social issues with our clients through our services and solutions

Contributing to society and increasing corporate value through corporate activities

- Resolve each of our material ESG issues
- Make use of know-how we have cultivated through our corporate activities

Reinforce Corporate Governance

- The reinforcement of our governance system
- More effective Board of Directors.
2. Growth Strategy

NTT DATA’s ESG Management

We set KPIs for the 12 Material ESG Issues to further promote our ESG management.

<table>
