

## NEWS RELEASE

June 12, 2020

# NTT DATA Group's greenhouse gas emissions reduction targets are approved as a "1.5 degrees targets" by "Science Based Targets Initiative (SBTi)"

NTT DATA Corporation

NTT DATA Corporation has set greenhouse gas emission reduction targets for 2030 as NTT DATA Group and was approved by the SBT (Science Based Targets) <sup>(Note 1)</sup> initiative. NTT DATA Group has developed "1.5°C target" for Scope 1 and Scope 2 <sup>(Note 2)</sup>.

In the future, NTT DATA Group will contribute to the realization of a sustainable society by further promoting respond to climate change in its business and corporate activities.

# SCIENCE BASED TARGETS

## DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

### [Background and Outline]

NTT DATA Group has identified "respond to climate change" as one of the Material ESG issues in its medium-term management plan (From 2019 to 2021), "ESG Management". NTT DATA Group has continued to reduce greenhouse gas emissions by society as a whole through the promotion of green IT solutions, and to reduce greenhouse gas emissions at its own facilities, including the Green Data Center®.

In order to achieve "1.5°C target" we will contribute to the realization of a sustainable society through further efforts to address climate change issues in our business and corporate activities, such as further energy conservation in our data centers that make full use of our technological capabilities, expansion of the use of renewable energy, and efforts to reduce greenhouse gas emissions throughout our supply chain.

### NTT DATA Group Greenhouse Gas Emission Reduction Targets

Scope 1 and Scope 2 <sup>(Note 2)</sup>	60% reduction by FY 2030 from FY 2016 (1.5°C target)
Scope 3 <sup>(Note 2)</sup>	55% reduction by FY 2030 from FY 2016
