Results for the Third Quarter of the Fiscal Year Ending March 31, 2022

Results for the Third Quarter of the Fiscal Year Ending March 31, 2022

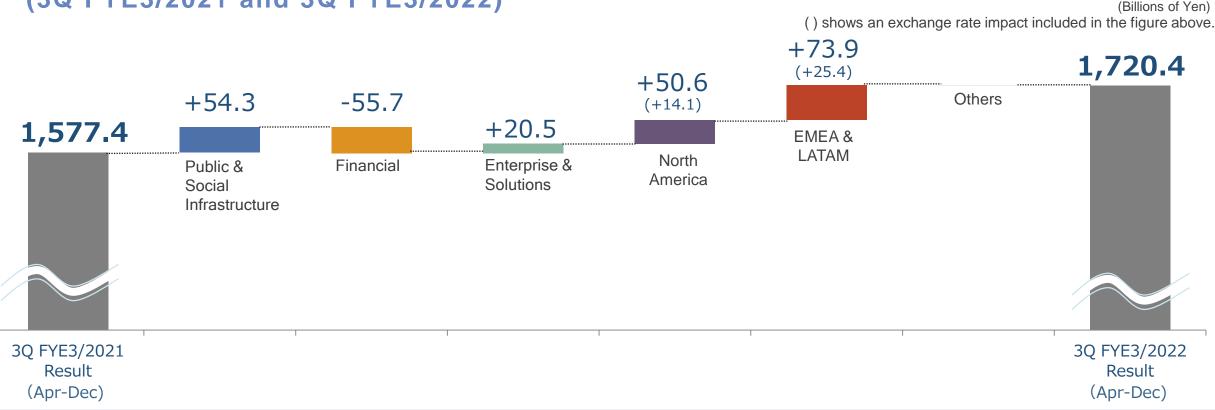

Continued favorable results since the first half.

- New orders received increased due to steady contract wins in Japan as well as the expansion of the scale of overseas businesses and the impact of foreign exchange rates.
- Net sales increased due to the expansion of scale in all segments as well as the impact of foreign exchange rates.
- Operating income increased due to sales growth and seeing results of overseas Structural Transformation.

(Billions of Yen, %)

	2021/3 3rd Quarter Results (Apr-Dec)	2022/3 3rd Quarter Results (Apr-Dec)	YoY (Amount)	YoY (Rate)	
New Orders Received	1,577.4	1,720.4	+143.1	+9.1%	
Net Sales	1,658.4	1,848.2	+189.8	+11.4%	
Operating Income (Operating income margin)	106.9 (6.4%)	167.1 (9.0%)	+60.2 (+2.6P)	+56.3%	
Net Income Attributable to Shareholders of NTT DATA	69.2	110.2	+41.0	+59.2%	

Public & Social Infrastructure

Increased mainly due to winning of renewal projects and new projects for the central government and ministries.

Financial

Decreased mainly due to fewer orders of large-scale projects for banks than in the previous fiscal year.

Enterprise & Solutions

Increased mainly due to winning of projects for manufacturing industry.

North America

Increased mainly due to winning of large-scale projects for financial institutions and corporate clients and the impact of foreign exchange rates.

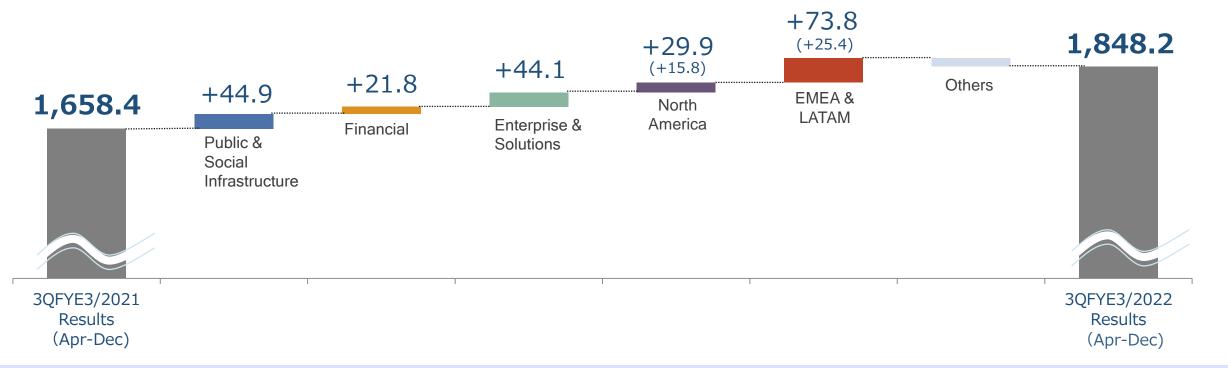

EMEA & LATAM

Increased mainly due to winning of projects in Europe, mainly in Spain, as well as the impact of foreign exchange rates.

Net Sales: YoY Changes by Business Segment (3Q FYE3/2021 and 3Q FYE3/2022)

(Billions of Yen)

() shows an exchange rate impact included in the figure above.

Public & Social Infrastructure

Increased mainly due to the expansion in the scale of services for the central government and ministries and the telecom industry.

Financial

Increased mainly due to the expansion in the scale of services for banks.

Enterprise & Solutions

Increased mainly due to the expansion in the scale of services for manufacturing industry and retail and service sectors.

North America

Increased mainly due to the expansion in the scale of services for healthcare institutions, as well as M&As and the impact of foreign exchange rate, despite a decrease in revenue from the sale of several businesses.

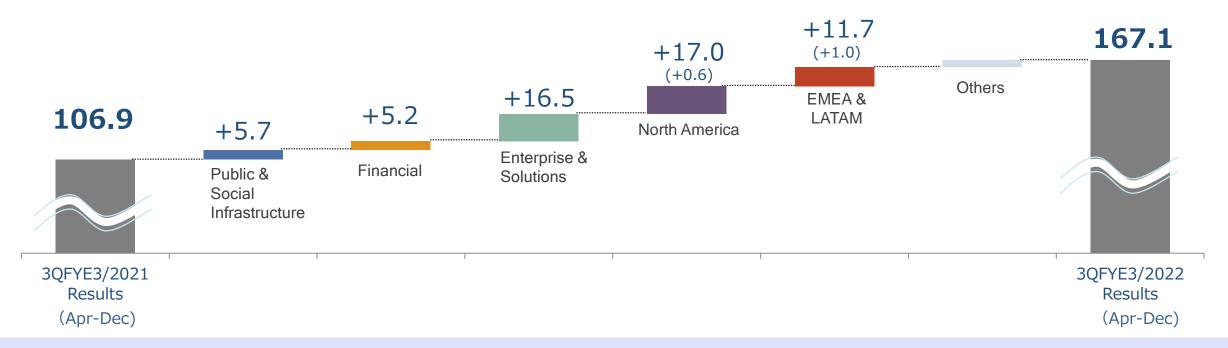

EMEA & LATAM

Increased due to the expansion in the scale of services in Europe, mainly in Spain, as well as the impact of foreign exchange rate.

Operating Income: YoY Changes by Business Segment (3Q FYE3/2021 and 3Q FYE3/2022)

(Billions of Yen)

() shows an exchange rate impact included in the figure above.

Public & Social Infrastructure Increased mainly due to sales growth.

Financial Increased mainly due to sales growth.

North America

Enterprise & Solutions Increased mainly due to sales growth as well as improved personnel utilization rates resulting from sales growth.

Increased due to sales growth as well as a decrease in the expense and seeing results of Structural Transformation.

EMEA & LATAM
Increased due to sales growth and seeing results of Structural Transformation despite an increase in expenses for global brand unification and additional measures.

Public & Social Infrastructure (3Q FYE3/2021 and 3Q FYE3/2022)

(Billions of Yen, %)

	2021/3 3rd Quarter Results (Apr-Dec)	2022/3 3rd Quarter Results (Apr-Dec)	YoY (Amount)	YoY (Rate)	
New Orders Received	350.3	404.7	+54.3	+15.5%	
Net Sales	356.5	401.5	+44.9	+12.6%	
Operating Income (Operating income margin)	38.4 (10.8%)	44.1 (11.0%)	+5.7 (+0.2P)	+14.9%	

New Orders Received Increased mainly due to winning of renewal projects and new projects for the central government and ministries.

Increased mainly due to the expansion in the scale of services for the central government and ministries and the telecom industry.

Operating Income Increased mainly due to sales growth.

Net Sales

Financial (3Q FYE3/2021 and 3Q FYE3/2022)

(Billions of Yen, %)

Recent Main Initiatives, etc

The Zero Trust Security Service Launched Globally

By providing a business environment that facilitates a flexible work, this service can realize high security through technologies such as quick detection, response, and recovery from external cyberattacks.

As such, it can contribute to the mitigation of damage caused by security incidents.

- ·Design Planning
- Budgets and structure considerations
- ·Rule development

Scope of service

Key points

Consulting

- Agree on objectives including executive management
- Define roles of security personnel and develop structures.
- Develop rules considering international standards and national regulatory frameworks.

Delivery

 Build a global security infrastructure based on sophisticated and integrated solutions.

SOC

 Security operations monitoring structure that operates globally 24/365.

NTT DATA has implemented and manage a zero-trust environment in our group, which operates in 55 countries and regions across the globe with 140,000 users. Based on this know-how, NTT DATA launched a service that fully supports zero-trust security straight from consultation to construction and operation.

Global Digital Offering for Life & Annuity Client | GIDP

Our digital capabilities such as the ones included in GIDP and the strong delivery capability backed by numerous successful project executions in the domain were recognized.

NTT DATA Services received a large multi-year contract for Third-party Administration services from a leading insurance company specializing in life insurance and annuities.

Transition Risk Mitigation

FY21.2Q Received a large multi-year contract extension from a leading provider of annuities and life insurance

FY21.3Q Received a large multi-year contract from a leading insurance company specializing in life insurance and annuities

Others

1. Continuously selected for the Dow Jones Sustainability Index (DJSI) "World Index", the ESG investment index (November 13, 2021)

NTT DATA was continuously selected for the DJSI "World Index", the world's leading ESG investment index, for the 5th consecutive year

2. Rating and Investment Information, Inc. (R&I) upgraded Issuer Rating of NTT DATA to 'AA+' (December 1, 2021)

As NTT DATA's earnings base became more robust in Japan and the its earnings of overseas business improved, R&I upgraded the Issuer Rating from AA to AA+.

3. Selection of Prime Market in Tokyo Stock Exchange(TSE) (December 23, 2021)

NTT DATA resolved at its Board of Directors meeting to select and apply for the new market segment "Prime Market", which will be introduced on April 4, 2022 in TSE.

4. Partial sale of strategic share holdings (January 28, 2022)

As a part of its efforts to review its strategic shareholdings, NTT DATA decided to subscribe to the tender offer of treasury shares conducted by Recruit Holdings Co., Ltd.("RHC") to sell a portion of the common shares of RHC held by the Company.

4

Appendices

- Business topics -

Principal Measures Taken in the 3rd Quarter of FYE March 31, 2022 (1/4)

Enabling online benefit administration procedures for the city of Yokohama to contribute to municipal Digital Transformations (DX) promotion

In November 2021, NTT DATA launched the reception management and application work support system for National Health Insurance and Long-Term Care Insurance in the city of Yokohama and plans to expand its target to include medical expense subsidies and medical care for elderlies during FY2021.

This system is connected to the in-house computer system of Yokohama City Hall to automatically print basic information such as an applicant's name and address on the application form. This will reduce both the clerical work of staff members due to descriptive errors and the burden of citizens of filling the application form. Furthermore, the system electronically manages the progress status of benefits procedures based on the QR code printed on the application form, making it possible to send a reminder message to staff members based on the progress status. Thus, the system realizes "No overlooked reception, No delayed administration" for the benefit administration procedures, accounting for approximately 1.2 million transactions per annum, all of which were managed on paper, thereby contributing to the work style reformation of staff members.

While considering the implementation of our services to other counter tasks in the city of Yokohama, NTT DATA will support approaches that contribute to the municipal DX promotion by meeting the requirements of online administrative procedures for local governments and standardized business systems, as promoted by the state.

Principal Measures Taken in the 3rd Quarter of FYE March 31, 2022 (2/4)

Realizing real-time mobility analysis/prediction to contribute to the reduction in food loss and waste and a low-carbon society

In November 2021, NTT DATA launched the BizXaaS MaP Mobility Analysis service, as a new service of its BizXaaS MaP (Note 1) series, which can predict real-time mobility of people.

This service enables to capture the mobility of a high-precision absolute number of people in each building, on each road, or on each sidewalk using our pinpoint mobility analysis technology by processing a combination of various pieces of data, including population distribution statistics, GPS, geographical spatial data sets, and data from the Mobile Space Statistics, the Japanese Population Distribution Statistics (Real-Time Edition) launched in January 2021 (Note 2). The service also enables a high-precision demand prediction that reflects real-time changes in the mobility, which could not be realized using the conventional statistical data-based prediction, based on the strength of our know-how on Alenabled prediction technology and parallel processing.

NTT DATA will broaden our services to the restaurant industry, retailer/distribution companies, and urban transportation to solve urban issues, such as reducing food loss and waste and improving energy efficiency, thus simultaneously contributing to the realization of a sustainable society and aiming for annual sales of 2 billion yen by FY2025.

(Note 1) BizXaaS MaP

A map streaming service provided by NTT DATA to offer both enriched location information content and business applications at one go.

(Note 2) Mobile Space Statistics, Japanese Population Distribution Statistics (Real-Time Edition)

Population statistical information which is achieved on the basis of NTT DOCOMO, INC.'s mobile phone network mechanism, which summarizes the population distribution approximately an hour earlier in the mesh unit of 500 meters for each attribute (gender, age bracket, and residence).

Principal Measures Taken in the 3rd Quarter of FYE March 31, 2022 (3/4)

NTT DATA Services provides digital platform for the Life & Annuity Industry and enhanced supply chain consulting and digital expertise through acquisition

NTT DATA Services, a subsidiary of NTT DATA Corporation, provides Global Insurance Digital Platform (GIDP), a cloud based, digital platform and partner ecosystem. NTT DATA Services accelerated our consulting and digital expertise through acquisition.

- GIDP provides best-in-class consulting, partnerships, Business Process as a Service (BPaaS), Third-party Administration (TPA), and technology to the Life & Annuity Industry. Our digital capabilities such as the ones included in GIDP and the strong delivery capability backed by numerous successful project executions in the domain were recognized by providers of Life & Annuity products.
 NTT DATA Services received a large multi-year contract for TPA services from a leading insurance company specializing in life insurance and annuities, in the third quarter of fiscal year 2021. NTT DATA Services also received a large multi-year contract extension for TPA services from a leading provider of annuities and life insurance, in the second quarter of fiscal year 2021 and continues to support the digital operating model and provide stable service.
- NTT DATA Services acquired Chainalytics, Inc., a supply chain consulting and analytics firm, in December 2021. Chainalytics offers end-to-end supply chain consulting and analytics expertise that aligns a company's supply chain to its corporate strategy to capture maximum value. The acquisition expands NTT DATA's digital and consulting business by adding approximately 200 supply chain specialists globally.

NTT DATA continues its journey to be the preferred digital partner in the market and supports clients in accelerating digital transformation in North America and globally.

Principal Measures Taken in the 3rd Quarter of FYE March 31, 2022 (4/4)

The Zero Trust Security (Note 1) Service Launched Globally

In November 2021, NTT DATA launched a service that fully supports zero-trust security straight from consultation to construction and operation.

NTT DATA cyberattacks, which are becoming more advanced and complicated daily, as key risks affecting corporate management, and have implemented and manage a zero-trust environment in our group, which operates in 55 countries and regions across the globe with 140,000 users. Based on this know-how, NTT DATA has built a system in which approximately 1,000 specialists from around the globe can provide the service, working in cooperation with our strategic partners. By providing a business environment that facilitates a flexible work style in any workplace or on any terminal, this service can realize high security through technologies such as multifactor authentications, log monitoring, and quick detection, response, and recovery from external cyberattacks. As such, it can contribute to the mitigation of damage caused by security incidents.

Through this service, NTT DATA will contribute to the realization of both a highly diversified IT environment and stronger information security governance, and furthermore aim to achieve annual global sales of 30 billion yen by the end of FY2025.

(Note 1) Zero-trust security

Zero-trust security refers to security that undertakes measures based on the premise that no communications can be trusted because the data and systems to be protected are scattered in various places with the dominance of cloud computing.

Trend of Order Backlog and Net Sales

(Billions of yen)

Overseas Net Sales and Profitability Trends (1)

^(*1) The figures for the periods until FYE 3/2017 are those for the former Global Segment, and from FYE 3/2018 and later, are the total of North America/EMEA & LATAM Segments and China and APAC.

^(*2) Net sales to Clients Outside the NTT DATA Group.

^(*3) EBITA (JGAAP) = operating income (JGAAP) + amortization of goodwill and intangible assets subject to purchase price allocation (PPA) arising from acquisition and others

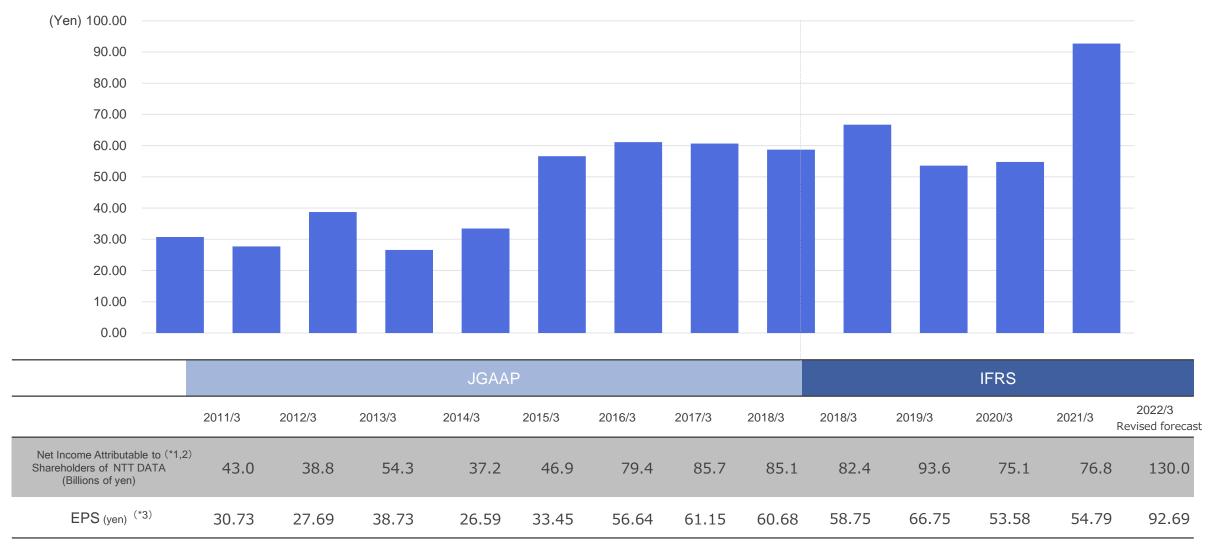

^(*3) EBITA (IFRS) = operating income (IFRS) + amortization of intangible assets subject to purchase price allocation (PPA) arising from acquisition and others

EBITDA Trend

^(*1) The figures for FYE 3/2020 and later were calculated excluding lease depreciation expenses (38.3 billion yen as the result of FYE 3/2020, 42.8 billion yen as the result of FYE 3/2021 and 35.0 billion yen as the forecast for FYE 3/2022 (estimate)).

EPS Trend

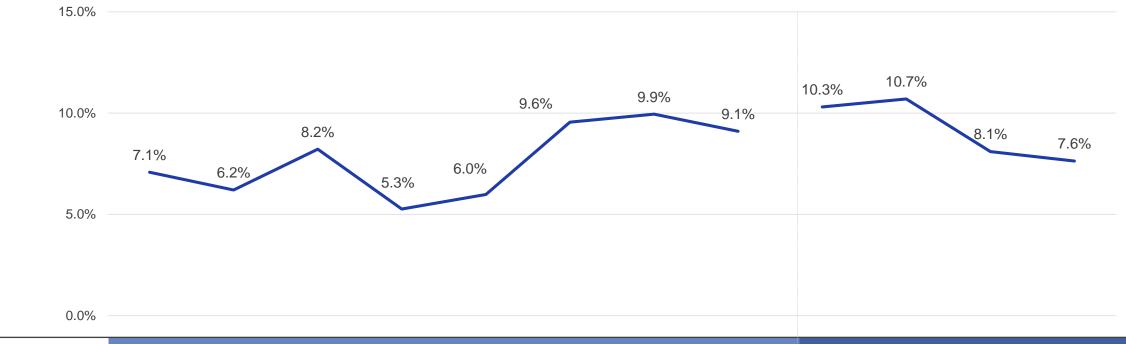

^{(*1) &}quot;Net Income Attributable to Owners of Parent" based on JGAAP.

^(*2) Figures based on JGAAP include adjustments for goodwill amortization and others (including impairment loss).

^(*3) Conducted stock split which shall split of common stock at a ratio of 1:5 as of the effective date of July 1, 2017. EPS is referring to the amount after stock split.

ROE Trend (*1)
